Miranda –

The consultant I've been in touch with regarding the Pioneer Park Hatchery is Chad Wiseman with HDR.

D 360 570 4427
M 360 970 9129
chad.wiseman@hdrinc.com

The method I used to derive stormwater allocations is from a USGS publication called [Techniques for Estimation Storm-Runoff Loads, Volumes, and Selected Constituent Concentrations in Urban Watershed in the United States](#). I used the 3 variable model for region 2. Happy to discuss in further detail if needed.
